

Transparent & Accountable Government

The Dignity of Human Rights

Balanced Trade

Economic Solvency

Workable Foreign Policy

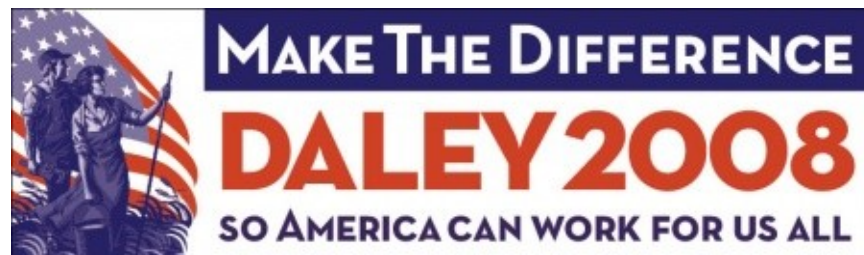

I have a Strategic Plan for the Future of our Nation !

By making tax exempt investments in our nation's economy we can achieve the means for quality health care and education. With renewable energy we can enhance our environment and transportation systems. My plans include reform of our infrastructure, agricultural, and immigration policies. We must support strong unions and create balanced trade to bring our jobs and industry home. My foreign policy includes peace with dignity and due care for all of our Veterans. We must mend our broken constitution now!

While building the Balanced Party based on the above principles, Orion Karl Daley is running as an Independent Candidate for President of the United States on November 4, 2008.
